

I would like to take some time to let you know what a blessing my local KLOVE station, 106.7FM has been for my family, friends, and myself. Everyday I listen to KLOVE everywhere I go. The music that they play is always so encouraging to hear. There are so many stations that play the same songs over and over again.

KLOVE is a diamond in the ruff, the songs they play are different from those played on other stations, they lift you up and send a positive message that more people need to hear. Music affects our moods and the outlook we have

throughout the day, I listened to other stations before I found KLOVE, and I did not feel as 'happy', if you

would, throughout the day. KLOVE is a breathe of fresh air, and lifts up the mood I am in. They also air news broadcasts that I know my coworkers, neighbors, family,

and friends all enjoy. KLOVE provides a public service to my community through the uplifting music they play and even the news they air. News that you don't hear on

G105, 105.1FM. They show us that there are good things going on in this area and country; and this helps me to have more great days. Without this encouragement in the

morning, I am sure that many people would have a more difficult

time getting through their days with the same quality they do now. Having a mix of radio stations to choose from is a great thing, and I love my local KLOVE station.

Thank you,

Jacob M. Hicks
